

Foundations of Modern Statistics (Moscow edition)

**Место проведения: НИУ ВШЭ, Покровский бульвар 11, аудитория R504
(кофе-брейк - R503, фуршет - M111)**

Ноябрь 30

Time	Speaker	Title
13:00-13:15	Welcome (Gasnikov, Naumov)	
13:15-13:45	Иван Аржанцев	Symmetries of algebraic varieties
13:45-14:15	Денис Беломестный	Fourier transform MCMC, heavy tailed distributions, and geometric ergodicity
14:15-14:45	Евгений Бурнаев	Combinatorial and Neural Graph Vector Representations for Graph Classification
14:45-15:15	Coffee break and group photo	
15:15-15:45	Евгений Тыртышников	TBA
15:45-16:15	Александр Гасников	Adaptive stochastic gradient methods
16:15-16:45	Алексей Наумов	Variance reduction for MCMC (or Local laws for random matrices)
17:00-19:00	Dinner (Professor's club Pokrovskiy bulivar)
